

In response to your request for feedback on the proposed development of 184 houses at the end of St Georges Ave.
Your Ref: APP/21/01010

Dear Sir/Madam

Firstly H.B.C have overseen enough Housing Development in the last 30 years. There soon will not be a green field or wooded areas left in the Borough. The vast majority of resident I have spoken to are vehemently opposed to any further development.

Apart from the devastating impact on the environment. The existing infrastructure cannot cope. The traffic in Southleigh Road is often horrendous, with cars queued back to the "One Stop" traffic lights, and beyond. Also, if this development is to go ahead, (and I hope you have enough sense not to pursue it), are more schools to be built and another Health Centre, to cope with an already bursting population that is moving in. Have you already arranged with Hampshire County Council education Department, and the Department of Health, respectively about these issues.

I did have a Councillor tell me, that if the Council did not approve "Housing Development", it would be imposed on the Borough from the Government. So be it!. Stop being complicit in any further development that the majority do not want.

I urge you to reconsider. Any further housing should be built on "Brown Field" sites. Maybe, up North, to attract industry, and therefore achieve the Government's "Levelling Up" agenda.

I am sending a copy of this letter to Channel 4 News, and B.B.C News Current Affairs

Yours Sincerely,
