

17th September 2018

REF. APP/18/00602
Planning application for alterations
to existing annex.

Mr. Peter Willis
35 Lovedean Lane
Waterlooville
P08 8HJ

My details:

Mr. Paul Foster
38 Passingham Walk
Waterlooville
P08 8JH

Dear Mrs. McMurray,

I am writing today with reference to the above planning application as I feel that I need to inform you of my situation.

My property is at the rear of the annex in question, approximately 20 metres away. There is a narrow, public footpath that separates my boundary line with that of Mr. Willis. [REDACTED]

[REDACTED]

There are at least 3 very large trees, that are not under any preservation order, within 10 metres of my property, and hanging well over my rear garden fence blocking off a lot of natural light.

[REDACTED] After excavations and months of monitoring it has been proved beyond doubt that these trees are the cause of subsidence to my property.

[REDACTED]

There is also a street lamp by the corner of his property that is there to provide light for this footpath that is now completely overgrown, is tipping at a steep angle and has not worked for some time. This has been reported to the council on at least 3 occasions but no action has been taken as nobody will take responsibility for its' ownership and maintenance.

[REDACTED]

submitted, there will be a window added to the rear of this annex on the upper floor and once the tree issue is resolved and they are removed, this will look directly into the rear garden and windows of my property allowing no privacy for me due to its' height. It is for these reasons that I object strongly to this planning application in its' present form.

Yours sincerely,

Mr. P. Foster
