

7th July 2019

The Planning Department
Havant Borough Council

I have just seen that there is a planning application, number 19/00588 regarding the felling of a 5metre strip of woodland by the Asda supermarket's fence. I wish to register my strong objection to this.

With the Borough accepting that we are under threats from climate change, it should be obvious that we need every tree, to help mitigate the effects. Please refuse this dangerous application.

Yours faithfully,
