

Your Ref APP/19/00429.

Overall the quality of our life and lifestyle will be severely, negatively impacted, in which is a further, instructions that is not acceptable.

Your Ref.

APP/19/00429.

Noise

You will be able to hear the wind continuing. Forcing Air over the wires & through the nest itself. so we have strong winds in the winter. This could affect your health too. The nest will not be for your own Boundary.

Natural habitats.

we are on the flight path of Migrating Birds. Geese, Swans, in Sept. the Red caps come to our garden and eat the fallen apples before flying on. we have Honey Buzzards which were seen on May 1st. by us and the gentleman at [REDACTED]

we have here. Bats, Crested Newts, The Bats being seen by 4 Bungalows close, and the folk at no 55 credit as they are in our garden Every Night. the grand children use their Bat detectors. to find them, the Bats are on DEFRA. listed by us.

Lesser Horse shoe, Short Eared & the Endangered Bats. Batsell. (on the site 14)
we have our own Rose Sweet's chicken & canary there are 200 hens, every line, cross crossing all gardens and Magnesian fields which the animals relay on to live, and must not be altered.

HAVANT BOROUGH
COUNCIL

Youn Ref.
APP/19/00429.
at. 59. Creek Rd.
Hayling Island.

Dear S.R./Madam.

We are strongly objecting to the Erection
of Mastis + Ariel. (which is not on plans).
Listed Below.

All Masts Hold a Health Risk. it has been
proven and documented by Southampton
University and Leeds. No matter what
Mast + Ariel's they can harm peoples
Health. i.e. Heart Pacemakers, Heart Monitors
and Transistors. The above mast will be
close to our garden and can be seen.

'Our Privacy + outlook' will be altered.
as soon as we leave our back door we will
see a mast 30ft + above the roof of no 59.
as we walk down the garden we will see the
length of the garden wires (From House to bottom
of garden.) not nice. outlook. Sitting in
our garden we will see mast, Riggings +
Ariel over 30ft. high. we spend most of
our time sitting + working in the garden.
we do not want to see mast + Ariel all
the time. our garden is Private to us.

Re. planning
APP/19/00429.

20. May 2019.

Dear Mrs Chisnall.
Planning officer.

Please will you note in 2003 & 2004.
we had the planning committee ~~the~~ Havant
and the planning Secretary for Bristol.
They spent all morning in our garden here.
to the planning off  Re. our wildlife.
Little owl & Bats and eared. newts.
You can see from your own records.
what Bristol said. we still keep in
touch with Bristol. with our own breeds.

Please note
The ground work for the Mart's
have been done. and the Mart poles too.

Yours.
