

22nd February 2019

Dear Mrs Pickup,

REF: Planning Application APP/18/01228

Regarding the planning application at stoke farm for the firewood business. Mr north has explained that you might be looking at a temporary permission. I would like to point out that that Mr North has always filled the barn next to the house with his tractor and processor in situ. I do not have, or have ever had, any issue with regards to it continuing to be done in this location.

I do strongly feel that a temporary permission would be detrimental to his business and farm and I hope that full permission can be granted.

Regards
