Dear Mr Toole
Further to our previous letter

As in case it is not convenient to meet you please
note our main concern with the development at
25 Charlesworth Drive is the danger it will
be causing at the junction of Drive & Gardens.
On one occasion there were 8 vehicles
in that area.

By co-incidence, our grey wheeler bin was not
collected on Tues 10 March & although twice
informed by the council it would be collected
during the week, it didn't happen. Still here.
Another phone call today to the council & we
were told the road had been blocked.
More vehicles opposite & in the gardens will
restrict the refuse carrier.

Regards.
