your ~~ref~~ ref^o APR/19/00883
(Mr L Oliver)

In respect of 2x 2 bedroom houses
on 93 Winterton Drive.

As of my previous comments I
strongly disagree with those
plans going ahead. This area
is thoroughly built up already
I feel these proposals will
over take my property which
will affect my personal space
and family's space. The parking
issues are extremely terrible
in this area especially in our
corner I have my own
driveway which constantly get
blocked day and night when
at times you got to go house
wanting to see where the
occupant of car is to move it.
more houses mean more people
more vehicles and more
visitors with more cars here.
When there is no more space
and cars get blocked in they

Drive along grass verge and on
pavement which is a major
safety concern how noones been
knocked down I do not know.
I can be walking out to get
in my car and a car will
be driving right along side me
its happened on numerous occasions
with young grandchildren its
on exceptable. I know these
properties say they have their own
parking but with existing people
living at 93 which have 2 cars
there always being blocked in
and most households have 2 cars
nowadays so 2 more houses
mean more cars its just so
overcrowded already I believe its a
safety issue here especially when
family visits with more vehicles.
this area is so already over
crowded it will spoil the
already overcrowded little corner
we live in already. The
flooding issues are bad here in
winter with almost every
year flooding as the water
runs down ~~low~~ full where
were on bottom theres no
where else for it to go its
constantly gets flooded here
so surely thats a problem.

I understand there's a housing shortage but it does not need to be built here this is a lovely place to live but as I've stated already over crowded here with people cars etc already do not need more traffic more noise more people in this little area it will totally spoil this area and as plans show the parking space there now way these cars are gonna park inside these properties as they will constantly get blocked in as the existing driveway which is the one they have to use gets blocked constantly now so there be parking outside which I strongly believe they will it's so wrong. I personally do not want my personal space being affected nor my family

Thank you
