Dears,

I am writing to lodge my concerns with the above planning application, parking spaces are not being provisioned for in the proposed plans and I strongly believe this will greatly affect the local shops in the area and to compound this situation further as the Hayling Billy will be closing in January with the loss of over 50 spaces for local business's and its customers to use. If we are to maintain our business and grow we need to have ample parking for our customers, if they cannot stop they will not shop and simply make there way off the Island and shop where they can park.!!! I understand with this planning application it is adding more dwellings without any consideration for parking surely this is not right.

I urge that this planning should be reviewed at the soonest based on the current situations in the local area with the Hayling Billy closing and this proposed development on the Pullingers site.

Best Regards
Matthew Walker
