Dear Sir

NETWORK MAINS PLAN

Further to your email dated 10th August 2015, please find enclosed a section of Ordnance Survey sheet on which is indicated in line the approximate positions brown of the Company's existing water mains. I have also included an "as laid" plan of the approximate position of the new network main. I am unable to indicate the approximate position of the water services to the various properties fronting your works, but wherever there are surface stopcock or meter boxes it should be assumed that a service pipe is connected to the Company's mains. I would suggest that should you require accurate information regarding the location of the Company's installations then trial holes be taken.

It would appear at this stage that your proposed works would not affect the Company's installations. I would however, suggest that should it be found necessary to carry out any alterations of the Company's installations then this be covered by a Works Order issued at that time.

All surface boxes should be adjusted to final levels.

Please be aware that the Ordnance Survey data provided to you with this letter may only be used under the terms of your own agreement with Ordnance Survey in relation to your right to meet your Statutory Obligations.

Yours sincerely

Dear Sirs

Provision of Public Sewer Main Record Extracts – VAT Receipt
Hayling Billy Pub, 117 Elm Grove, Hayling Island, Hampshire, PO11 9ED

Further to your recent enquiry regarding the provision of Southern Water apparatus record extracts for the above location.

Please be aware that there are areas within our region in which there are neither sewers nor water mains. Similarly, whilst the enclosed extract may indicate the approximate location of our apparatus in the area of interest, it should not be relied upon as showing that further infrastructure does not exist and may subsequently be found following site investigation. Therefore actual positions of the disclosed (and any undisclosed) infrastructure should be determined on site, because Southern Water does not accept any responsibility for inaccuracy or omission regarding the enclosed plan and accordingly it should not be considered to be a definitive document.

I confirm payment of the appropriate fee in the sum of £ **49.92**

The breakdown of costs is as follows: -

- Provision of record extracts £ 41.60
- VAT @ 20.0% £ 8.32

VAT Registration Number 813 0378 56

Should you require any additional information regarding this matter please contact this office at the address given at the foot of this letter.

Yours faithfully

This plan shows those pipes owned by Scotia Gas Networks plc in their role as a Licensed Gas Transmitter (GT). Gas pipes owned by other GTs, or otherwise privately owned, may be present in this area. Information with regard to such pipes should be obtained from the relevant owners. The information shown on this plan is given without warranty, the accuracy thereof cannot be guaranteed. Service pipes, valves, syphons, stub connections, etc. are not shown but their presence should be anticipated. No liability of any kind whatsoever is accepted by Scotia Gas Networks plc or their agents, servants or contractors for any error or omission. Safe digging practices, in accordance with HSG47, must be used to verify and establish the actual position of mains, pipes, services and other apparatus on site before any mechanical plant is used. It is your responsibility to ensure that this information is provided to all persons (either direct labour or contractors) working for you on or near gas apparatus. The information included on this plan should not be referred to beyond a period of 28 days from the date of issue.
