Dear Sir/Madam,

Erection of 50 new dwellings together with access, landscaping and open space (Revised Scheme). at Land south of, Lower Road, Havant

Hampshire County Council as Lead Local Flood Authority has provided comments in relation to the above application in our role as statutory consultee on surface water drainage for major developments.

In order to assist applicants in providing the correct information to their Local Planning Authority for planning permission, Hampshire County Council has set out the information it requires to provide a substantive response at <https://www.hants.gov.uk/landplanningandenvironment/environment/flooding/planning>

The County Council has reviewed the following documents relating to the above application:

- MJA Response letter ref: SS/19:0771/5992
- SuDS Management and Maintenance Plan revC
- Surface Water Calculations dated 13.01.2019
- Site Investigation and groundwater monitoring submitted under APP/19/00427
- Section through Attenuation Basin, Reed Bed and Wet Pond ref: 5992:P11 B
- Surfacing Strategy Layout ref: 5992: P05 C
- Exceedance Flow Plan ref: 5992:P06 A

We would recommend the following condition is applied to this application:

1. No development shall begin until a detailed surface water drainage scheme for the site, based on the principles accepted under application

Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI

reference APP/20/01031, has been submitted and approved in writing by the Local Planning Authority. The submitted details should include:

- Details of the treatment level using the CIRIA Simple Approach Index level provided by the Multi-Stage Treatment Filter" from Hydro International unit. provided by the "Multi-Stage Treatment Filter" from Hydro International.
- Details showing how the top layer of the infiltration borehole will be sealed details of what measures such as screening will be provided to prevent entry of debris into the borehole soakaways.

As a statutory consultee, the County Council has a duty to respond to consultations within **21 days**. The 21 day period will not begin until we have received sufficient information to enable us to provide a meaningful response.

Please ensure all data is sent to us via the relevant Local Planning Authority.

This response has been provided using the best knowledge and information submitted as part of the planning application at the time of responding and is reliant on the accuracy of that information.

Yours faithfully,

Flood and Water Management Team
Economy, Transport & Environment Department,
Hampshire County Council, 1st Floor, Ell Court West,
The Castle, Winchester, Hampshire SO23 8UD

General guidance for the application

It is important to ensure that the long-term maintenance and responsibility for Sustainable Drainage Systems is agreed between the Local Planning Authority and the applicant before planning permission is granted. This should involve discussions with those adopting and/or maintaining the proposed systems, which could include the Highway Authority, Planning Authority, Parish Councils, Water Companies and private management companies.

For SuDS systems to be adopted by Hampshire Highways it is recommended that you visit the website at:

<https://www.hants.gov.uk/transport/developers/constructionstandards> for guidance on which drainage features would be suitable for adoption.

Where the proposals are connecting to an existing drainage system it is likely that the authorities responsible for maintaining those systems will have their own design requirements. These requirements will need to be reviewed and agreed as part of any surface water drainage scheme.

Works in relation to ordinary watercourses

PLEASE NOTE: If the proposals include works to an ordinary watercourse, under the Land Drainage Act 1991, as amended by the Flood and Water Management Act 2010, prior consent from the Lead Local Flood Authority is required. **This consent is required as a separate permission to planning.**

Information on ordinary watercourse consenting can be found at the following link

<https://www.hants.gov.uk/landplanningandenvironment/environment/flooding/c hangewatercourse>

It is strongly recommended that this information is reviewed before Land Drainage consent application is made.

For guidance on providing the correct information, we recommend you use our **Ordinary Watercourse Consents Pre-application service** and help avoid delays occurring at the formal application stage. A Pre-application service for Ordinary Watercourse Consents is available, allowing consents to go through in a smoother, often more timely manner. For full information please visit:

<https://www.hants.gov.uk/landplanningandenvironment/environment/flooding/c hangewatercourse>
