Comment:

The family’s proposed home looks lovely and I hope they get to build it, I do however have an objection to make to the current plans.

The objection relates primarily to the proposed garage block. I am concerned that the garages will cause significant negative impact to the outlook and the light [REDACTED] [REDACTED]. I would also question whether the garage block is proposed to be built too close to the boundaries of properties in Pennant Hills which could lead to issues around the walls and fences.

I would also like to point out what I believe could be a confusing detail from the planning application submitted. Please see the document “Proposed_Section_Plan”. It shows a slope up from the garage block . Perhaps I misinterpret what the diagram intends to show but no such slope exists.
