Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

APPLICATION FOR TREE WORKS SECTION 7 DESCRIPTION OF WORKS

T9 OAK (QUERCUS ROBUR)

REQUEST TO FELL.

Anxiety caused due to proximity of house, tree has outgrown its size in proportion to its location in the garden, and has significantly grown in the last 35+ years since the TPO order.

Significant loss of light and excessive shading to our house and neighbours at # 8 Spruce Avenue.

The tree is approximately 50% fuller and larger on the left hand side, and looks like it is starting to lean.

Neighbours have expressed concern due to the proximity to their homes.

Medium to small branches fall in windy and adverse weather, which has potential of falling on people walking past and dog walkers. In the fall when the leaves and acorns fall the street and drains are covered in foliage.

The felling of the tree would not impact the area, but may prevent catastrophic damage to several houses should it fall or be struck by lightning. We have many other smaller trees, bushes and foliage in our front and back garden (compared to all our neighbours). Our neighbourhood has many surrounding trees around the estate.

This tree has outgrown the area in which it sits since the TPO was put on it in 1982, when the estate was first built and it was significantly smaller at that time. If needed we would be happy to plant another tree or shrubs in the area even though our garden is full of trees, shrubs and flowers.

I am including photos of the tree.
