[REDACTED]

REF. NO APP/21/00639

Monday 26th July.

Dear Sir or Madam,

I have lived in Andrew Crescent since 1987

[REDACTED]

I object strongly to this one bedroom bungalow being built in the garden of No 65 for the following reasons.

- 1) This estate is built on clay, and I know of one bungalow near me that had subsidence, and had to be underpinned
- 2) When a previous owner of No 65 [REDACTED] had to have it tanked at the top part of the now fenced off garden, because he had flooding.
- 3) This road and perhaps many more have sewage blockages. I myself have had blockages at [REDACTED] very often and now at this one [REDACTED]
- 4) The most serious objection is that the bungalow behind me has a stream running under its garage at the bottom of my garden, the question is how far back into my ground is that stream? Locals have told me

that the stream runs under this side of Margaret Close and Andrew Crescent, out onto the Hambledon Rd to where probably the new estate has been built.

5) There is already a traffic problem in Margaret Close, with cars too near to the junction with Andrew Crescent and as there is no garage with this new bungalow another car near the bend will make the problem worse.

6) Finally this is a reasonably quiet residential area, [redacted] and I do not ~~like~~ relish the noise and pollution while it is being built.

7) Lastly if this bungalow is allowed to be built, and in doing so, causes any flooding or damage to my land I will hold the Planning Dept, and Havant Borough Council solely responsible.

Yours Faithfully
[redacted]
