Subject: Re: 9A. Salterns Lane, Hayling Is. APP/17/01211

Dear Ms Pitney,

Thanks for your email. [REDACTED]

[REDACTED] It would appear that we misunderstood the overall measurement of the revised proposal which should now read 6m and not 6.3m. I am aware of the slight lowering of the ridge height and the addition of glazing into the gable end.

However, I must inform you that our objection stands as we feel the proposed extension is still too large at 6m.

Yours sincerely,

Nigel Roper

Dear Ms Pitney,

Single storey rear extension

Thank you for your letter of the 5th January. My partner, Joanna Hamilton and I have perused the revised drawings online.

We find it most disappointing that neither of our suggested revisions have been acted upon. The revised plan and slightly reduced overall length to 6.3 metres and unaltered roof design will still have a major and unacceptable visual impact to both their neighbours being so close to both the applicants northern and eastern boundaries.

In that event, we regretfully that we have to formally OBJECT to the proposed development.

Yours sincerely

Nigel Roper and Joanna Hamilton
