Hayling Island.

2 May 2017

Dear Steve

**HAYLING SEASIDE RAILWAY – APPLICATION FOR VARIATION OF CONDITIONS
FOLLOWING THE GRANT OF PLANNING PERMISSION: RAILWAY DEPOT EASTOKE
CORNER, HAYLING ISLAND**

I refer to discussions a couple of weeks ago about required variations to the planning permission, and enclose an application for variation to approved planning consent no, APP/14/00627. This is to enable an amendment to be made to condition 6 regarding the colour finish of the cladding of the building. A notice under article 13 of Application for Planning Permission is also attached, together with a cheque for £195 in respect of the application itself..

Also, as discussed and agreed with you, I enclose a revised set of plans (3 copies) which correct some of the minor anomalies between the approved plan and what has actually been built. We also intend to square off the fascia board to the station frontage as part of the changes.

Again as discussed, we have carried a consultant exercise with all the local business directly affected by the new depot building seeking views and discussed the matter with them all. Following this exercise, a petition was prepared and is attached. This has been signed by virtually all of the owners of premises that would be directly impacted. We have also discussed this with many local residents and tourists, and all have expressed concern and shall I say horror, at the thought of the building being painted in a sapling green colour.

I trust this is clear but please let me know if you require any further information

As you appreciate this matter is urgent as we wish to complete the paint protect work to the cladding as soon as possible.

Thank you for your assistance

Yours Sincerely

Cliff

C N Robinson
