Dear Sir/Madam,

Outline Application for access with all other matters reserved, for up to 72 new homes plus associated green infrastructure including community orchard at Camp Field (land to the west of Havant Crematorium), Bartons Road, Havant

Thank you for consulting Hampshire County Council (HCC) as the mineral planning authority (MPA) with regards to the above planning application following the receipt of the Minerals Report.

HCC accept the conclusions of the Minerals Report that there will not be viable extraction of Minerals Resources possible at this site and encourage the use of incidental extraction within the development in the case that any useable sand or gravel is excavated during development.

Hampshire County Council would therefore request the following conditions to be included in any permission for this planning application, to be delivered through submitted construction management plans or similar, requiring a statement outlining:

- i. a method for ensuring that minerals that are excavated during the development operations are recovered and put to beneficial use; and
- ii. a method to record the quantity of recovered mineral (re-use on site or off site) and to report this data to the MPA upon completion of the development.

Hampshire County Council is available to discuss this further with Havant Borough Council, as well as the applicant.

Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI

Further information on safeguarding and Hampshire County Council's approach to it is available in the adopted Minerals and Waste Safeguarding in Hampshire Supplementary Planning Document, which can be found on our website: <http://www3.hants.gov.uk/mineralsandwaste/planning-policy-home/hmwp-spds.htm>

Yours faithfully,

Tom Uglow
Monitoring & Policy Officer
