Dear Sirs

I wish to make it known that I am completely opposed to the Planning Application made by Bargate Homes for the building of 50 dwellings on land south of Lower Road, Bedhampton.

I was born locally but saw many different places during my husband's career in HM Forces. We came back here in the early '80's and what hasn't changed is the high cost of housing in this area. This should be addressed by other areas being opened up and developing there. All of our little jewels of tranquility will be eroded by pollution. I was born just before WW2 and realised we were entering a changed world, but did not expect all the evils brought upon by what is happening in the world today.

Yours
