Contd: Unauthorised change of use of land – Your Ref: 18/00102/CMP

As a result of this dialogue, I did, however, ensure the reversing alarm on the forklift truck was disabled and now we only use a flashing light. We also ensure the forklift truck is never started before 8:00am at the weekends and are always finished by 2pm.

I will be submitting the application for change of use of land as requested, but trust these points will be taken into consideration as closure of this site would impact a lot of local businesses especially at a time when used pallets are in short supply across the nation. Few pallet companies are able to take on new business and if the supply chain stops now many local businesses will suffer. Virtually everything bought and delivered is done so on pallets.

I appreciate your consideration in this matter

Yours Sincerely

Jason Ross
Director
