Your query or comment:
I wish to object to the planning application APP/16/00021 as this proposal is very likely to destroy the habitat in terms of biological and hydrological interest and the geology in the vicinity of the site would not be suitable to defer the consequences of inadequate foul drainage or soakaways. I agree with other objections already placed, but having completed a dissertation in Environmental Accounting for my Msc in Accounting and Finance, with distinction from De Montfort University in 2010 feel that it is important to labour this point. I am very concerned about the destruction of the rural character and eco-balance as a result of this change of use.
Yours sincerely,
Fiona J Greville A.C.M.A. Msc. (Mrs)
