

We would like to support Mrs Good's application for lawful usage.

To place a static caravan onsite at:

Land adj Oakley — ~~North~~ Copse
Copse Lane
Hayling Island
PO11 0RJ

There has always been caravans on this site over the years and in fact still an old static onsite at present.

Mrs Good would be a good person to supervise the site looking after the trees, wildlife and the natural habitat that surrounds it having been chairman of the Hayling tree people for a number of years.

Mrs Good has also personally organised and paid for over 200 trees to be planted on the island. An example of this can be seen at Lower Tye Campsite which is now closed.

The driveway into the site is clearly marked as is the electric and water services that can be seen onsite.

Buildings that were used as a kitchen, garage and toilets are still there and can be clearly seen.

With all this in mind we are in favour of this application.
