For the attention of Mr. David Eaves – Case Officer

Ref: Application Number APP/21/01434

Dear David,

Further to the publication of the following report in support of the above application “Brent Goose Mitigation Strategy Prepared by CSA Environmental on behalf of Gladman Developments - Report No: CSA/4956/09 November 2022”. I feel it would be beneficial to those making any decisions on this application to add supplementary data by providing the sightings of Brent Geese that have been submitted by Rook Farm Way residents to HIWWT covering a similar period, specific coincidental dates have been highlighted where appropriate and it can be seen to compare well but it would appear that days when larger numbers of birds were using the land the reports observer was not able to attend and hence several key occasions of intensive bird activity have been missed, hopefully this letter will assist in filling those missed opportunities.

As can be seen from the reports photographs were also submitted in support and copies should be available from HIWWT or can be supplied on request from myself. I am certain that this data in conjunction with the historical data supplied since 2008 will provide a clearer and more in-depth account of the numbers of Brent Geese that use this Core Site.

Extract from page 5 Report No: CSA/4956/09 November 2022

Systematic List of Species	Nov 13	Dec 4	Dec 25	Jan 3	Jan 23	Feb 7	Feb 19	Mar 5
<i>Chroicocephalus ridibundus</i> †
