

Contacted Havant Council to see if they would clear the over grown thorn~~e~~ bushes / over grown trees and branches as it damaged all our Rear fence by bowing it out and braking fence panels and was a general hazard to walk through our garden.

I was told Havant Council doesn't own that part of land and was advised to contact Land Registry.
(Contacted Land (~~Registry~~)^{Registry}) and was told that the land wasn't registered to anyone and wasn't given any further advise after that. So hired people to take the fence down and clear so far behind the fence so it wouldn't over grown again and damage my new fence.

As it was cleared professionally, I did put my new fence back between 1.5 - 1.8 metres. I would of never replaced my existing fence if it wasn't all busted and such a hazard to walk past
