SUBJECT: Planning Application 194 Southwood Road, Hayling Island
Ref: APP/18/00400

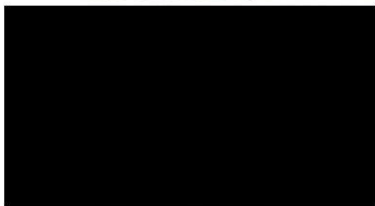

We would like to raise a couple of objections to the above planning application.

1. We are most concerned about the proposed raising of the height of the existing wall between our property (wall being at present 1 metre high). Any raising of this height as a so called 'secondary sea defence' would impact greatly on outlook and there are no other properties in the area which feel the need for such, as records show there has been no flooding since the 1960's.

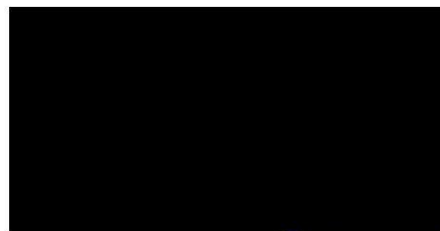

2. Our other objection is the erection of a 1st floor balcony projecting out over the original footprint of the current property which will result in us being overlooked from on high impeding our right to the enjoyment of our property.

3. From our small garden our view to the east will be greatly restricted if wall as planned goes ahead which would be a great disappointment and being overlooked by proposed extended balcony disconcerting. Can we please refer you to the following in conjunction with our aforesaid objections ESCP (CS16c of the District Wide Local Plan/Core Strategy) and ESCP (CS15.3 District Wide Local Plan/Core Strategy)

We ask that you take our objections into consideration on deciding the application.

Yours faithfully
Mr and Mrs F Harrison,
