

Ref: APP/24/00257

3rd June 2024.

Dear Planning Services;

We are writing to confirm that we do not support the retrospective planning permission proposal submitted by the owner of 4 Hartwood Gardens Camplain PO8 8PA.

The reason for our stand point we highlighted in our original communication with Havant Borough Council Ref 62406/10966.

The permanent tiled roof construction has no guttering / rainwater management resulting in rainfall travelling directly off the roof

and onto the floor

We strongly object to the positioning of this permanent building that is too close to the boundary and request

- * The proposed building is moved away
- * The proposed tiled roof building is fitted with adequate rainwater drainage/management
- * Clarification as to whether this building will ~~like~~ have a change of purpose in the future.

Yours faithfully
