Dear Ms Sheath

REF: Proposed new sun bed shop, 10 London Road, Purbrook

I would like to object to the planning application to change the old one stop to a sun bed shop. I own a beauty salon at 32 London Road, I have been here for 9 and half years. I am extremely concerned about the impact a sunbed shop will have on our small business. There is no specific car parking for the shop and the number of customers a shop like that could bring would affect the parking here dramatically. Each person visiting the shop would not be just a 5 min stop off as when the one stop was there.

We have worked hard to build our business and the fact that our customers would not be able to access our salon easily is a major problem and will have an adverse effect on the business we have worked so hard to make a success.

I had already made your planning office aware of my concerns when I had seen advertising for the shop on social media before we had been informed of any change of use. If there is anything else I can provide to support my objection or you wish to discuss my objection in more detail, please do not hesitate to contact me.

Yours sincerely
