Mr D Eaves,

I write in connection to Planning application: APP/17/00369. Thank you for taking the time to visit my property and explaining the plans.

After reviewing all the information I wish to strongly object to the development. I feel that a three story block of flats is not suitable; however a smaller flat/housing development may be applicable if all concerns of existing residents are met.

- I believe that the existing planned development would result in a loss of privacy to my property; a three storey development would have clear view into my living room, bedrooms and even my bathroom. Any balcony that overlooks an existing property is not acceptable
- I have concerns over the loss of light to my property that a three story building would potentially cause
- I am concerned about the number of trees that have already been removed and the effect this will have on the local environment/wild life. The plans are confusing to me but it appears that more trees have been removed than the number that is planned to be planted.

I have spoken to other residents of Havant Farm Close and it is clear they share the same concerns as I do regarding the height of the planned development and the loss of light and privacy. I would like to back their comments about the location of the bins and cycle sheds, reiterate the need for vermin/pest control.

I would like to conclude by saying a smaller foot print/two story block of flats without balconies that overlook existing residential properties could be acceptable. Should you have any questions please feel free to contact me on [REDACTED] in writing to the above address.

Best Regards

Rita MCcoy
