14/12/2019

Dear Mr Pickup,

Thank you for sending us copies of the amended plans of proposed alterations to 29 Beaumont Ave Henley Island dated 6th Dec 2019.

Once again the plans are not that clear as yet no change to our main windows of the size of the proposed Rear Extension approx 13' for ~~it~~ it would give us a very large roof line to look out on, also Blocking out light in our Kitchen and Dining Room Limiting the outlook from Kitchen

We are in favour of keeping the roof to a Apex as it was before it was sold and to the same Velux windows being of approx the same size as the original windows.

We are worried it would put people off buying our Property if we ever decided to move and Reduce the value, as our pleasant outlook would become a large roof line.

We trust you and the Planning Committee will treat this matter with your serious consideration before making a decision and look forward to hearing from you shortly.

Yours Faithfully.
