

6 June 2025

Attention: David Eaves
Havant Borough Council

By email only

SLR Project No.: 402.064821.00001

Dear David,

RE: New Portsmouth Water HQ, land north of Solent Road, Havant

Please can you progress the planning application to the next available Planning Committee meeting. We have had meetings and correspondence with the representative of the Bosmere Medical Centre (BMC) to see if we could meet the BMC directly to seek to reassure them about the planning application and some concerns they have raised about highway issues, but a meeting does not appear to be forthcoming. Portsmouth Water are still prepared to meet with the BMC directly if that would give reassurance about the planning application and any potential impact but in the meantime, can we please progress to the planning committee.

We are confident our proposals fully assess the highway impact, and we believe the highway authority are satisfied with our proposals. We look forward to the planning committee decision and the positive news for the Borough that Portsmouth Water are looking to remain in Havant and build a new high-quality headquarters building, and in doing so releasing vital space for further development.

Yours sincerely,

Dr Chris Lyons
