

[REDACTED]
HAYLING ISLAND COUNCIL

12 JAN 2023

RECEIVED

Your ref

APP/22/01218

To G Speller

I wish to appeal against this planning application for 1 to 3 Beech Grove Hayling Island on the grounds of;

Highway and safety; I believe that the island has more than enough people living on it at this present time and the roads on Hayling are just not up to coping with more traffic The occupier of [REDACTED] as this building would lead to.

[REDACTED]

Trees and Hedge rows; this building i believe would destroy even more plant life then has already been done in the past with past building on this property.

Noise and smells; this would be the 3rd time in the last 3 year that this residence has had build done to it we have already 3 years of building and noise and contest extra traffic to this address.

Parking a disruption; because of the larger amount of residents there is a great amount parking needed in Beech grove and Tournerbury Lane which even at this time is too much but with more residences i

believe would hinder if we the emergencies services need access
which as you know is most important.

[REDACTED]

Yours hopefully
