

Dear Sir or Madam

[REDACTED]

As you can see from previous correspondence regarding the above Acoloid case, work was started on 2a Seagull Lane many months ago. Now planning permission has been formally applied for - the development is already well under way - without apparently planning permission being given

[REDACTED] I wish to complain in the strongest possible manner about this proposed development for many different reasons

The first reason for objecting is the noise that will be generated by the nature of the proposed windows which will be open for ventilation [REDACTED] In addition noise will be generated by people coming and going [REDACTED] I understand the proposed opening hours will be from 8am to 10pm 7 days a week.

Parking. There is nowhere to park in Seagull Lane except for 4 dedicated parking slots [REDACTED]

Access. The only possible access to this site is down a narrow passage from Seagull Lane and even without social distancing this I would suggest would be a health and safety hazard. Plus the likelihood of people gathering outside.

In addition, I also believe that there is asbestos present in the current roof which poses a health and safety hazard when being removed. I look forward to hearing from you with the information that this application has been turned down.

Yours faithfully

[REDACTED]
