Planning Application App / 18 / 00134

"Fair Acre" Church Lane , Northney'

Hayling Island.

Reference my previous correspondence to you dated 1st March 2018 of which to date I do not appear to have had any indication as to any resolution or clarification on the matter.

I understand that Fair Acre have now withdrawn their application for a Variation to Application App/ 16/00993 whereby the First Floor – West Elevation windows be fitted with opaque film and permanently fixed shut contrary to the granted original application.

I would therefore submit that our same objection now applies to the proposal for the complete removal of Condition 3 similar to my last objection.

I deplore the fact that an agreed planning condition especially one that effects the privacy of a neighbour and which was specifically discussed and agreed with both parties at the time is likely to be totally disregarded .

I would suggest that the Planning Authority use it's full powers and enforce the original agreement

Yours Faithfully

J.W.Phillips.
