Importance: Normal

Dear Andrew Biltcliffe,

I am writing to you on behalf of Hayling Island residence, whom strongly object the idea of this proposal... demolition of retails units and associated outbuildings and redevelopment to form a retirement home. If you are not already aware of the issues which this will present in time?

Hayling Island is failing as a tourist attraction, more than ever shops are being closed, pubs are being shut down for what, so that a few members can make some profit!!!

Let me ask you, whats going to bring more retail back into the community... retirement home or a new group of worth while shops/ attractions.

On top of this, the land from which the plans have been selected are not for development of properties, this land is written to have retail presents.. So how can this be aloud to go through?

Every single person whom I have asked about this proposal is shocked!!! not one person has ever and I mean ever said that it is a remotely good idea.. I bet you haven't even taken in to consideration the doctors on this Island, they are already having a hard time with the increasing numbers.... Now adding more into the mix is just asking for trouble.

I have lived on Hayling Island since the age of two and would like to see this Island lively again...

Regards
Jack Reynolds

Happy Christmas
