

200721P243E1

Your REF. APP/20/01228.
PLANNING. DEV. HAVANT.

Dear Sirs.

With reference to the above application
I have left 4 messages with
Ms. L. WELLS, with no response.

Both myself and husband do not use
the internet, [REDACTED]

[REDACTED] We have managed
to get a photo taken of the proposed
house. [REDACTED]

I will list the concerns we
have and need somebody to
make these things clear from your
office. I spoke to Grace at the
office because no ~~the~~ ~~the~~ call from
Ms. Wells. Grace was helpful but
could do no more than myself by
leaving another message.

1 Property is abutments including
roof [REDACTED]

2 Height of Bldg ~~over~~ from above
ground. The amount of windows,
doors on west elevation,

HOUSEHOLD WASTE
10000
this would overlook our front garden and into our front bay window where we sit and read and would affect our daylight and privacy.

There are also what look like roof windows, or are they sky lights, roof windows would affect these things.

3/ What is the distance of the south elevation from the fence.

4/ Flooding.

5/ We also think the house looks far too big for a small plot.

6/ Any comments are not considered after the 28th May, we are not able to get to the offices, when checking G. understand they are closed. We need somebody to call and show us the plans.

7/ For these reasons we oppose the application.

Yours Sincerely

[Redacted Signature]

P.S. I have also tried to contact planning services, the phone rings rings then goes to engaged!
