Comment: Having lived in Emsworth for many years, I strongly support this application. No one likes change, however this is a much needed development for modern residents of the area and having visited several other McCARROLL STONE Developments I am absolutely confident it will enhance Western Avenue, which has become less attractive over the years with the expansion of Springfield and the lack of upkeep of other properties in this road. This development can only help make Emsworth a wonderful area to retire to. [REDACTED]
