

National Highways Planning Response (NHPR 22-12) Formal Recommendation to an Application for Planning Permission

From: South East Regional Director
Operations Directorate
Southeast Region
National Highways
PlanningSE@nationalhighways.co.uk

To: Lewis Oliver, Havant Borough Council

CC: transportplanning@dft.gov.uk
spatialplanning@nationalhighways.co.uk

Council's Reference: APP/21/01351

Location: Land South of Saltmarsh Lane, Hayling Island

Proposal: Outline application for erection of up to 60 dwelling units with access; associated landscape and highway works on land south of Saltmarsh Lane, and all other matters reserved.

National Highways Ref: 95161

Referring to the consultation on the planning application referenced above, in the vicinity of the A27 that forms part of the Strategic Road Network, notice is hereby given that National Highways' formal recommendation is that we:

- ~~a) offer no objection (see reasons at Annex A);~~
- ~~b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – National Highways recommended Planning Conditions & reasons);~~
- c) recommend that planning permission not be granted for a specified period (see reasons at Annex A);**
- ~~d) recommend that the application be refused (see reasons at Annex A)~~

Highways Act 1980 Section 175B is not relevant to this application.¹

This represents National Highways' formal recommendation and is copied to the Department for Transport as per the terms of our Licence.

Should the Local Planning Authority not propose to determine the application in accordance with this recommendation they are required to consult the Secretary of State for Transport, as set out in the [Town and Country Planning \(Development Affecting Trunk Roads\) Direction 2018](#), via transportplanning@dft.gov.uk and may not determine the application until the consultation process is complete.

The Local Planning Authority must also copy any consultation under the 2018 Direction to PlanningSE@nationalhighways.co.uk.

¹ Where relevant, further information will be provided within Annex A.

Annex A **National Highways' assessment of the proposed development**

National Highways has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

In case of this development proposal, our interest is in the A27, in particular the A27/Langstone Road/Park Road South junction.

As per Hampshire County Council's requirement noted in their formal response dated 23rd May 2022, National Highways requested a cumulative traffic assessment in our holding response dated 24th August 2022. With no further information received, we sent further holding responses dated 19th October 2022, 13th December 2022, 3rd February 2023, 12th April 2023, 25 May 2023 and 19 July 2023. We are still awaiting the outcome of this request.

Recommended Non-Approval

It is recommended that the application (Ref: APP/21/01351) should not be approved for a period of 56 days (until 7 November 2023) from the date of this recommendation until such time as we have resolved the outstanding matters.

Reason: To allow National Highways to understand the impact of the development on the safe and efficient operation of the Strategic Road Network and provide the Local Planning Authority with fully informed advice.

Standing advice to the local planning authority

The Climate Change Committee's [2022 Report to Parliament](#) notes that for the UK to achieve net zero carbon status by 2050, action is needed to support a modal shift away from car travel. The NPPF supports this position, with paragraphs 73 and 105 prescribing that significant development should offer a genuine choice of transport modes, while paragraphs 104 and 110 advise that appropriate opportunities to promote walking, cycling and public transport should be taken up.

Moreover, the build clever and build efficiently criteria as set out in clause 6.1.4 of [PAS2080](#) promote the use of low carbon materials and products, innovative design solutions and construction methods to minimise resource consumption.

These considerations should be weighed alongside any relevant Local Plan policies to ensure that planning decisions are in line with the necessary transition to net zero carbon.
