Dear Team

We are writing in relation to your letter regarding the tree being cut back in the garden of 2, Spencer Road, Emsworth. PO10 7XJ

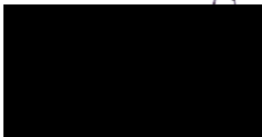

We are in absolute agreement of this being cut back as the tree is causing concern and distress to us, the main concerns we have are.....

- Dead branches dropping into the garden, Mr and Mrs Dyer have young grandchildren and are concerned that they might be injured by one of these branches falling on them
- Branches are now nearly reaching the roof causing blockage to the guttering and drains.
- The sap that falls from the tree ruins your garden furniture and washing.
- We have a lot of pigeons that sit in the tree and constantly have droppings on your washing and garden furniture.
- The gardens are constantly covered in leaves, sap, acorns and dead branches.
- The size of the tree is restricting light into the house.
- The tree overlaps the car park and pedestrian walk way at the back of the house and during the winter months when the leaves and acorns drop this causes a slip hazard, the leaves pile up and when it rains they become hazardous. We have never seen the council clearing this and making the area safe to walk through.

We fully support that the tree is cut back as much as possible.

I would also like to mention that the trees to the side of the house of 2, Spencer Road these are also touching the house and damaging the property, I believe this is the responsibility of the council to maintain and reduce.

Yours sincerely

S. Hall
