16.08.2018

Dear Heather

In response to Item 5 of the Planning Conditions, Reference APP/18/00448, please find attached a copy of the original survey drawing with the 225mm main foul sewer added in RED as it was not known by the surveyor. The other drains on the drawing merely serve Grey Havens.

We have carried out a full survey of all the Grey Havens' drains and list below our findings ;

I.C.1         Drains the first floor bathroom.  
I.C.2         Is over the main sewer.  
I.C.3         Drains the kitchen and WC from the 1<sup>st</sup> floor.  
I.C 4 & 5     Drains Ground floor WC and basin in the ground floor front bedroom.

I.Cs 1,3,and 4 will be utilised to take the new foul drainage so that a new connection to the main sewer will not be required.

The drawing attached to Southern Water's letter dated 04.06.2018 is no longer correct as the main sewer was diverted around the back of Numbers 7 and 8 by us under Southern Water's supervision. The GREEN dotted line on the drawing indicates a heras fencing line which we will erect 2M from the rear of the proposed new house so that no machinery will transverse over the existing sewer.

Once the building is demolished and the foundations in, no activity of any consequence can be carried out at the rear as the new building takes up virtually the whole site and there is only restricted access to the rear.

The same building team will be responsible for this site as carried out the building work on Numbers 7 and 8 Western Parade.

Regards

Maurice
