

HAVANT BOROUGH  
COUNCIL

16 DEC 2021

RECEIVED

1 Dear Sir

Ref: APP/21/00893)

With all the findings re the above development on wildlife and destruction of an important habitat I can hardly believe it is being considered. It will lead to more animals being killed by increased traffic plus the danger for elderly and children using that area. Why would ruining a unique area be right, causing pollution to the River Ems and the wildlife corridor between Chichester Harbour and the affect on Hollybank Woods and Southleigh Forest.

I ask you to consider every

aspect before allowing this to  
happen. We cannot have it  
returned once destroyed
