Dear Miss Pitney

In principle I have no objection to the proposed extension to my neighbours' home

My concerns and observations are as follows and my right to light due to increased size

1/ As my home and the party wall suffered subsidence some time ago that adequate foundation are installed to overcome any future disturbance

2/ Privacy High level windows on boundary would prefer brickwork to full height

3/ The half round sun lounge is on my boundary affecting light to my property I would like this to be centralised

4/ The construction conforms to current fire regulation and insulated against my property

Yours Sincerely
