RECEIVED

Town & Country Planning Act

87. St Thomas Ave.
Hayling Is.
PO11 0EU.

3 bedroom

Erection of Detached Bungalow.

c/o 87 St Thomas Ave.

Dear Sir or Madam.

With regard to the above application
of building the above property in
my neighbour's back garden. I
strongly object for the reasons I list below:-

Highway Traffic

The area concerned is part of a tree
junction and, at times, it already a
problem with congestion of cars.

There are 5/6 chalet bungalows, a number
already having two cars per property in

quite a small area. There is only one access
to our properties as we are in a ~~tree~~ cut-de-see.
Delivery vans, visitors, refuse collection & all
the day to day things & groups of day to
day life.

Conservation of Building, trees & hedges

Although St Thomas Ave is an urban area, there is no doubt that the gardens trees & hedges provide some sort of habitat for our wild life such as the birds, hedgehogs & other natural creatures.

Since living here, I have noticed a decline in these and I put this down to the gradual encroachment of owners coming their front gardens with tiles etc for CARPORTS.

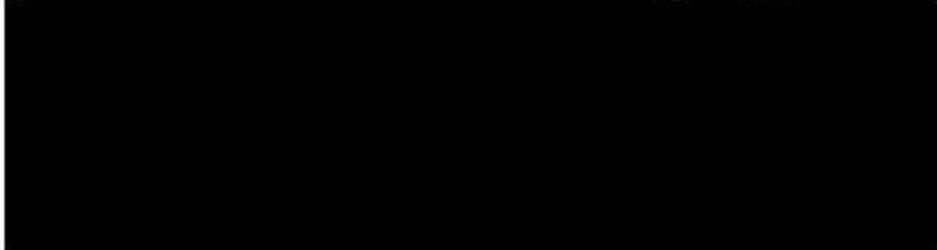

I would request that what we have now, be kept as is.

There is no doubt that the people living in close proximity to the suggested building will have their outlook changed. & personally I am very concerned with the drainage situation which has already been a great problem here on the Island.

Thanking you
yours. Sincerely

I have just been made aware of the plans for the building & I see that in addition to what I have already stated, it would comment that it would change the whole ambience of St. Thomas Ave. Should this get passed, no doubt there will be many here to follow. Please do not let this happen.

P.P.S.

I also note the drainage would run into my Property, and this ^{is} a problem we already mentioned in the problem
