This is only a temporary structure, bolt together pre-fab seconal garage, there is no water or electric going to it. Kept at low height, not blocking any one view, and to keep the front garden dy, less of an eye saw and noise level lower so as not to annoy the neighbours.

We only plan to have this for the next 5 years [redacted]

If you require any further informaon or wish to visit to inspect that this is a temporary structure please do not hesitate to contact me.

Regards

Mr and Mrs Williams
