Subject: 208, London Road Waverlooville

This concerns plans for development of 208, London Road. This is significantly improved against the previous proposal. An improvement we would like to see is that the parking spaces 7 and 8 adjacent to the bike shed on the plan would, from our perspective, be better placed next to the garages of numbers 2 and 3 Farm Lane Close since there could be noise and fumes into our bathroom and particularly the en-suite off our main bedroom. Presumably the existing shed on the plan would be removed.
