Subject: RE: APP/18/00587- Land at Harts Farm Way

Hi Emma

Thank you for your time yesterday to clarify the Council's thinking as set out in your email below.

I confirm Peak Gen is agreeable to proceeding as requested by the Council withdrawing the current application ref APP/18/00587 and submitting a retrospective planning application for the existing site and proposed SCR to regularise the planning position.

However, we just want to note that by taking this action Peak Gen does not necessarily agree with the Council's view that the February 2015 planning permission has been lost and the development is unlawful. We reserve the position to test this argument at a future date if necessary.

Kind regards

Stephanie
