

25TH FEBRUARY 2019

Ref: Planning application APP/18/01228

Dear Mrs. Pickup,

We are writing regarding the above planning application for processing logs into firewood. Our neighbour Mr. Graham North has applied for processing timber into logs in the North/West corner within his farm yards. This move does not cause us any concern as the covered area in that part of the yard has already been used to store firewood for some time. The ensuing tractor noise did not cause enough disturbance to inconvenience us.

We are in no way objecting to the business of mixed use of agricultural and logging processing, and wish Mr. North success with his application.

With friendly greetings,
