Dear Mr Flynn

**APP/15/0015/01353**

I/We write with reference to the retrospective planning application for a Sales Parking area adjacent to the protected eastern boundary and AONB. It is understood two previous applications made by Bellway were not approved.

As there have been no changed circumstances to require such an area in this sensitive location please decline this application so the area can be landscaped for the wildlife as per the original planning approval. A large number of trees and mature hedging have been removed in permitting this development and the required planting and screening is needed as soon as possible to restrict light and noise pollution and to allow the much needed habitat to mature.

In the unlikely event that potential customers needed to park on the existing highway network, it would be of little concern as the cars would be parked for a limited time unlike the Bellway contractors vans; some of which continue to park all day on the highway and obstruct access to existing properties.

Yours sincerely
