Dear Srs,

I am writing with reference to the above planning proposal at 157 Milton Road, Campton.

My husband and I would like you to note our objections based on the amount of congestion already in the Milton Road, especially in that area. There are a lot of roads converging in that one small section & we feel that this development will contribute to further congestion.

In addition, the current

space is being used as a car park & we cannot see where people will be able to park if this space is removed.

We would be grateful if you would take these points into consideration when reviewing this application.

Yours faithfully.

MRS SE BROOK
