

To Madam,

Did you know I'm only [REDACTED] and I am a vegetarian, not because of the taste but because of the way I like animals and I do not want them to be extinct! [REDACTED] Why do you want to build on the field even if it dose not belong to you?(Please do not build on the field). Imagen if you were a mouse or a bird and someone was building on your house. How would you feel? Imagen if your house was now destroyed. I like porridge and my food comes from the field and I will not last for long if I don't have any breakfast. Will I?

Bye , Bye

[REDACTED]

"Look how pretty it looks!"
