RECEIVED

Dear Mrs Hayward

" Mama Mia — here we go again.

This is the third map I've seen
re this site and I write to
ask for its rejection

The key element, in my view, is
the realignment of the road on
the northern side. What was a
NE-SW spur has now become
a fundamental spine road
which, again in my view, has
been done for an utterly
ulterior motive. Clearly,

the Developer anticipates that, before long, the geese will find hundreds of people, cats, dogs, noise etc not to their taste and abandon their so-called Refuge Area and then ^{they will} seek permission to build on it, an event made all the easier by that spine road! This alteration is nothing more than the thin end of the wedge. I urge you to reject it

I have written several times now objecting to the plan on its totality with all the issues that must be familiar

to you and I don't propose
to repeat them. The hundreds
of letters which now appear
on-line — most of which I've
read — must make it clear
beyond doubt that the
grounds for approving the
whole Plan are flimsy and
those for rejecting it are
overwhelming. I was
especially struck by

 long and
exhausting document and
would associate myself
with his arguments ~~completely~~

So, and hopefully for the
last time, I write to urge

that Barratt's proposals
are rejected in their totality;

Yours Sincerely
