Amendment to Approved Planning Ref: APP/16/00861

Dear Ms. Emma Chisnall,

I have recently purchased number 50 Bembridge Drive where there is existing planning: -

"Demolition of 'original' flat roof garage, ground floor pitched roof rear extension (corner infill), front pitched roof extension, creation of first floor roof space including 2 No. dormers to the south and east elevations and a Juliet balcony to the first-floor rear elevation."

I have detailed this amendment due to the 'down scaling' of the current approved plans and trust that all the previous considerations remain unchanged.

- I no longer request planning for the rear south west corner (in fill)
- I no longer currently request planning for a first-floor development living space and currently want to keep the property single story (bungalow)
- I no longer request planning on the dormer windows as this is no longer applicable.
- I no longer request planning for a Juliet balcony as this is no longer applicable.

I do request the following amendments: -

- The ground floor extension extended approximately 2m from the current approved application. This will not exceed the neighbours extended property.
- The extension to terminate with a gable end type roof.

To support my amendments, I have included 4 drawings outlining the amendments: -

NB060717_001

NB060717_002

NB060717_003

NB060717_04

I look forward to hearing from you soon, if in the meantime please contact me if you require any further information or clarification.

Yours sincerely

Nick Barker
