

App/21/01351 Up to 60 dwellings South of Saltmarsh Lane, Hayling Island

Please accept my objection to the above application on the following grounds.

1. Additional development adjacent to West Lane will add traffic to a road which is already overloaded. It is a narrow lane which is not meant for heavy traffic.
2. The addition of more people will only add to the overloading problems at the health centre, Schools, etc.
3. Additional loading on the already struggling sewage system. Drains overflow whenever there is heavy rainfall.
4. The fields under threat were meant for farming and wildlife, not for developers to line their pockets. Once built on they are lost forever
